OF NEW YORK

Museum Association of New York
COVID – 19 Safety Policy for In-Person Events
Revised September 8, 2021

With the safety of our colleagues foremost in mind, attendees at programs offered by the Museum Association of New York agree to adhere to the following for 2021 in-person events:

Attest they are two-weeks passed a completed vaccination program and have not been exposed to anyone who tested positive for COVID-19 within the past 10 days.

Agree to adhere to CDC and New York State Dept of Health guidelines for safe gatherings. The requirements mandated by the site of gathering will prevail if they are more stringent than the guidelines offered by the CDC, New York State Department of Health, or MANY. MANY will rely on the host organization in the administration of those requirements.

As of September 8, 2021, these requirements will include wearing masks appropriately, practicing social distancing, practicing practical sanitation procedures, and any other safe gathering guidelines in place at the time of the program.

MANY will be asking attendees to acknowledge the policy as part of the registration process and to provide proof of vaccination through a CDC issued card or Excelsior Pass.
